

I am opposed to broadening Broadcast Ownership. The public deserve the protection of the airwaves. If greater consolidation occurs, high quality unbiased airwaaves will become a thing of the past. I believe the way to keep this country free is to allow for greater diiversty of broadcast, thus minimizing consolidation. Greater consolidations in this country have proved to decrease quality in the phone companies, the airlines, the manufactured products and will do the same if allowed to occur in Broadcast.01245
